

Three Counties Agricultural Society

Sustainability Charter

The Three Counties Agricultural Society commits to:

- Integrate sustainable practices into all Showground activity where feasible to reduce waste, conserve energy and lower carbon emissions
- Maintain, publicise and build on all sustainable activities and policies currently established at the Showground
- Always consider and promote ways to further reduce carbon emissions in all Showground activity
- Work with partners and other stakeholders to ensure all Society sustainability practices are implemented correctly and at all times
- Educate and engage visitors and partners in sustainable practices and their importance to the Showground
- Establish and maintain a Sustainability Working Group to champion sustainable practices across all aspects of the Society
- Report annually on our sustainability activity to all staff, stakeholders, partners and the public, including measuring the Society's emissions and setting targets for improvement
- Comply with all relevant environmental legislation as a minimum requirement
- Ensure this Charter and goals are supported and understood at all levels of the Society and all stakeholders are aware that sustainability and this Charter are critical to how we operate and grow as a Charity
- Regularly review and update this Charter to ensure it upholds our ongoing commitment to operate sustainably
